

ATTENTION: MEDICARE PATIENTS

Medicare will NOT allow you to have any type of home healthcare while you are receiving outpatient therapy.

This means that you cannot have an aide, a nurse, wound care, assistance in bathing, supervision of medications, or any service provided by an agency and paid for by Medicare.

If you do need to receive help from an agency in your home you must discontinue therapy in our office.

Have you had any type of home health in the last 6 months? _____

If yes, what agency? _____

When were you discharged? _____

I understand that if Medicare denies payment for my therapy treatments due to home health care involvement I will be responsible for payment.

Name _____ Date _____

Signature _____
